Gentlemen.

Enclosed is an ancient Roman coin. We can find no description of it, though we have examined several books with accounts and illustrations of old coins. It belongs to a poor man. The enclosed account of it is cut from our paper, the Hartford Daily Times, of the present week.

Can you tell what it is, and when issued? What is its value? Excuse me for troubling you, but no one in this city, can give an account of it. Respy.
